Dear Ken

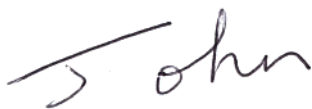

Inquiry into poverty in Wales: making the economy work for people on low incomes

At the meeting on 17 May, the Equality, Local Government and Communities Committee considered its draft report on the inquiry into poverty in Wales: making the economy work for people on low incomes.

As part of our broader discussions around the report, we agreed to seek further clarity from you on the roles and terms of reference for Fair Work Board and the Fair Work Commission. We are particularly interested in understanding the relationship between the two groups, and how their respective work will inform the other. .

I would be grateful if you would respond with this information by 19 June 2018

Yours sincerely

John Griffiths AM
Chair
