Inquiry into Energy Policy and Planning in Wales

EPP 182 – Mr and Mrs I Bernard

Please do not allow the desecration of our beautiful mid Wales in the name of Green energy. To put these big ugly things up all across Wales is going to do the opposite of what green energy was all about. Windfarms are ugly and very damaging to the countryside and all that live in it, including wildlife and people. Very worried Mid Wales homeowners.

Mr & Mrs I Bernard
