

Environment and Sustainability Committee

Inquiry into Energy Policy and Planning in Wales

EPP 210 – Ann Butler

Dear Committee Clerk,

(For the attention of committee meeting Chairman in relation to the proposed wind farm/substation/electricity pylon developments in Mid Wales.)

I should like to register my objection to the desecration of the beautiful lands of my beloved CYMRU. Please. Please Please do not allow these developments to be sanctioned. The arguments used in favour of the proposals do not make scientific, environmental or financial sense. TAN 8 is out of date and the arguments against these developments too strong to be ignored.

Yours Sincerely,

Ann Butler.
