

Environment and Sustainability Committee

Inquiry into Energy Policy and Planning in Wales

EPP 213 – Robert Hall

To the Clerk to the Committee

I am responding to your letter of 2 August 2011, merely to state that I totally disagree with the way WAG are bulldozing through their energy policy without apparent regard to public concerns. The provisions of TAN 8 most seriously affect mid Wales and it is inexcusable that the WAG are vigorously refusing to review it.

In these circumstances I fear I shall be wasting my time in addressing other issues.

Robert Hall
