Inquiry into Energy Policy and Planning in Wales

EPP 255 – Jonathan Francis-Scott

Dear Sir / Madam

I am writing to support the petition for a review of TAN8 and examination of the traffic movements in Mid Wales. My reasons for this are:

The visible intrusion on our beautiful uplands The impact on tourism that this will undoubtedly have - my wife's income is entirely dependant on our holiday let The impact on my employment that the traffic chaos caused by TAN 8 construction and mtce traffic will have, how will I get to Birmingham and Manchester for meetings when the roads are clogged with enormous loads? Traffic throughg Newtown is terrible without this additional burden Impact on property value and my ability to raise finance against my property to fund business ventures

Regards

Jonathan Francis-Scott
