

Environment and Sustainability Committee

Inquiry into Energy Policy and Planning in Wales

EPP 278 – Nerys Rogers

Dear Sir/Madam,

I am writing to support the petitions that call for a review of TAN8 and an examination of traffic movements in Mid Wales. My reasons for this are:

1. Deforestation and resulting ecological implications.
2. Visual impact
3. Noise Pollution
4. Effect on tourist industry.
5. Health risks.
6. Depreciation of house/land values.
7. Transport issues.

There can be no justification for wind farms and pylons on the proposed scale when the affect of the above mentioned on the environment and people of Mid Wales is considered.

Yours faithfully,

Nerys Rogers,
